

FEATURES AND PROCEDURES**DAILY PICK 3****A. The theme and name of the game:**

The name of this game is DAILY PICK 3. It is a game in which the player selects three (3) numbers from zero (0) to nine (9). The player may select the same number more than once. At the player's option, numbers may be player-selected or randomly selected by computer.

The three winning numbers are each randomly selected by a drawing. Set prizes are awarded for matching the three (3) numbers drawn in exact order (straight play), in any order (box play), or in both orders (straight/box play), depending on the type of play selected by the player.

For the purposes of the Lottery's Retailer Performance Program, this game is considered a daily game.

B. The price of tickets:

1. The price of a ticket is either fifty cents (\$0.50) or one dollar (\$1.00) for either straight or box plays, or one dollar (\$1.00) for a straight/box play, or such other price as set by the Lottery Division Administrator, which entitles the player to enter one play (three (3) numbers from zero (0) to nine (9)) in each drawing for which the ticket is purchased.
2. Tickets purchased for the current midday drawing or evening drawing may also be purchased for future drawings. Fourteen (14) drawings will be held each week: seven (7) midday drawings and seven (7) evening drawings. Drawings will be held once midday and once in the evening each day as outlined in section D(1). Players must select the number of draws for each play purchased and whether the play(s) purchased will be for the midday drawings, the evening drawings, or both midday and evening drawings. Tickets may only be purchased for up to seven (7) consecutive midday drawings, up to seven (7) consecutive evening drawings, or up to fourteen (14) consecutive midday drawings and evening drawings, (i.e., seven (7) consecutive midday drawings plus seven (7) consecutive evening drawings) starting with the next midday or evening drawing available for purchase. Tickets purchased for both midday and evening drawings shall include the same number of drawings for both the midday drawings and the evening drawings, (e.g., a player cannot purchase four (4) midday drawings and three (3) evening drawings.) Tickets are only valid for the specific drawings (midday or evening) and drawing dates as reflected on the valid ticket. In its sole discretion, the Lottery may designate that fewer than fourteen (14) drawings are available for purchase.
3. Options to select a specific draw (midday, evening or both), future drawings, and player-selected numbers may be limited on Wisconsin Lottery vending machines.
4. Tickets cannot be cancelled, and there are no refunds. It is the sole responsibility of the player to verify the accuracy of the game plays. The placing of plays is done at the player's own risk through a retailer who enters the plays.
5. A Lottery Retailer, group of Lottery Retailers, or the Lottery itself shall not directly or knowingly sell a play or combination of plays to any person or entity that would guarantee such purchaser a Top

Prize win. A player or group of players shall not directly or knowingly purchase a play or combination of plays that would guarantee such purchaser a Top Prize win.

 - b. If two (2) of the three (3) numbers played are identical (e.g. 112), there are only three (3) possible combinations of those numbers. This type of box play is called a “3-way box”.
